

PROTILT

HIGH PERFORMANCE AWNING / CASEMENT WINDOW

ALSPEC's ProTilt High Performance Awning and Casement Windows are ideally suited for suburban housing, multi-unit residential, hotels and commercial applications

Featuring overlapping internal and external seals, the ProTilt Awning and Casement Window is the preferred choice where superior weather performance is required. A range of glass thickness options from 5mm to 28mm allows the system to be configured for excellent thermal and acoustic performance.

The system can be used with a range of available stays while also offering multi-point locking options and a proprietary winder. The ProTilt seamlessly interfaces with ALSPEC's McArthur and Hunter Evo Commercial Framing Systems.
